REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-5 is the inclusion of an open portion provided in the supporting portion to mount the support portion to the supporting portion. The open portion passes through the supported portion under the condition that a drum shutter is positioned at a mount position deviated from and between the protecting position and retracting position before coupling the first unit and the second unit. When the first unit and the second unit are coupled, the drum shutter is movable between the protecting position and retracting position and the drum shutter is restricted not to move to the mount position due to contact between the drum shutter and the second unit when the drum shutter is moving toward the mount position from between the protecting position and the retracting position. This is found in all of claims 1-5, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
